NHS Organ Donor Register

96% of us would take an organ if we needed one.

Yet only 27% of us have taken action and joined the NHS Organ Donor Register.

If you believe in organ donation, prove it.

The NHS Organ Donor Register gives hope to more than 10,000 people of all ages across the UK who need an organ transplant.

Yet many people – on average three a day – die before they can have a transplant because there are simply not enough organs available.

Do you believe in organ donation? If you would take an organ, would you be willing to give one and help someone live after your death?

Register now.

How to register

It's simple to join the NHS Organ Donor Register using one of the following methods:

- go to www.organdonation.nhs.uk
- call **0300 123 23 23**

NHS Organ Donor Register

The NHS Organ Donor Register records the details of people who have registered their wishes to be an organ and/or tissue donor after their death.

This confidential information is used by authorised medical staff to establish whether a person wanted to donate.

Anyone can register. Age isn't a barrier to becoming an organ or tissue donor – people in their 70s and 80s have become donors and saved many lives. Most medical conditions don't rule you out either.

One donor can save or transform up to nine lives. It's only through the generosity of people like you that lives can be saved.

Register now

Please let those closest to you know your wishes about organ donation.
