

Royal Infirmary, Edinburgh*
Overview of activity, 2009 - 2011

Table 1 Overview of activity

Age of patient (years)	Number of patients on transplant list (daily average)	Percentage ¹ of patients ² receiving kidney only transplant within 1 year of listing	Number of transplants carried out (annual average)				Number of kidneys ³ retrieved (annual average)	
			All transplants	Kidney only transplants from:				multi-organ transplants that include a kidney
				DBD donors	DCD donors	Live donors		
≥18	239	6	98	45	16	24	13	107

¹ As a percentage of the number of patients newly listed on the deceased donor transplant list between 2007 and 2009

² Exclusions - patients who recieved live donor transplants (as centre practices with regards to listing of such patients differ) and patients registered for kidney/pancreas transplant

³ Kidneys donated by adult or paediatric deceased or live donors

*Patients from the catchment areas of Dundee (since November 1999), Inverness (since August 2003) and Aberdeen (since December 2003), have their transplants carried out by Edinburgh. Data for these three centres are included throughout this report.

Details of activity, 2009 - 2011

Table 2 Donors

DBD Number	Deceased donors (annual average)		Live donors (annual average)	
	Number	DCD % of transplants in which kidneys from donors after circulatory death were used ^{1,2}	Number	% of transplants in which kidneys from live donors were used ^{1,2}
31	11	16	26	25

¹ As a percentage of all transplants at the centre in adult or paediatric patients using kidneys from live or deceased donors

² See Table 4 for number of transplants in paediatric and adult patients

Table 3 Patients on the active transplant list

Age of patient (years)	Number of patients on the transplant list (daily average)	Percentage change in list size over time period	Number of patients joining the deceased donor transplant list (2007-2009) ¹	Percentage of patients receiving kidney only transplant within:		
				6 months	1 year	2 years
≥18	239	-26	239	3	6	16

¹ Exclusions - patients who received live donor transplants (as centre practices with regards to listing of such patients differ) and patients registered for a kidney/pancreas transplant
